## 1. INTRODUCTION

This repair station capabilities listing has been prepared in accordance with the current Federal Aviation Regulations (FAR) and the policies of Ultra Electronics – Flightline Systems. The Accountable Manager is responsible for the maintenance and accuracy of this listing.

This repair station will not maintain or alter any item that is not listed in this document, is not rated, and will not maintain or alter any article for which it is rated if it requires technical data, equipment, materials, facilities or trained personnel that are not available.

## 2. DOCUMENT CONTROL

Changes to this shall be made according to the data and document control procedures outlined in the Quality Manual. Any subsequent changes to this capabilities listing must be approved by Director of Quality. A master copy of this capabilities listing is retained in the document control department.

Changes to this listing will only be made after receiving written approval from the FAA. A current copy will be maintained at the designated FAA office. Listing changes shall be controlled by Standard Practice SP3-002.

### 3. CAPABILITIES LISTING

The Repair Station capabilities include the ability to disassemble, repair as necessary, reassemble and test for airworthiness, using approved documentation, the following products:

<u>Part Number</u>	<u>Model Number</u>	<u>Description</u>
*157570	*7741-100	ITT INDICATOR
*162030	*7742-258	EGT INDICATOR
